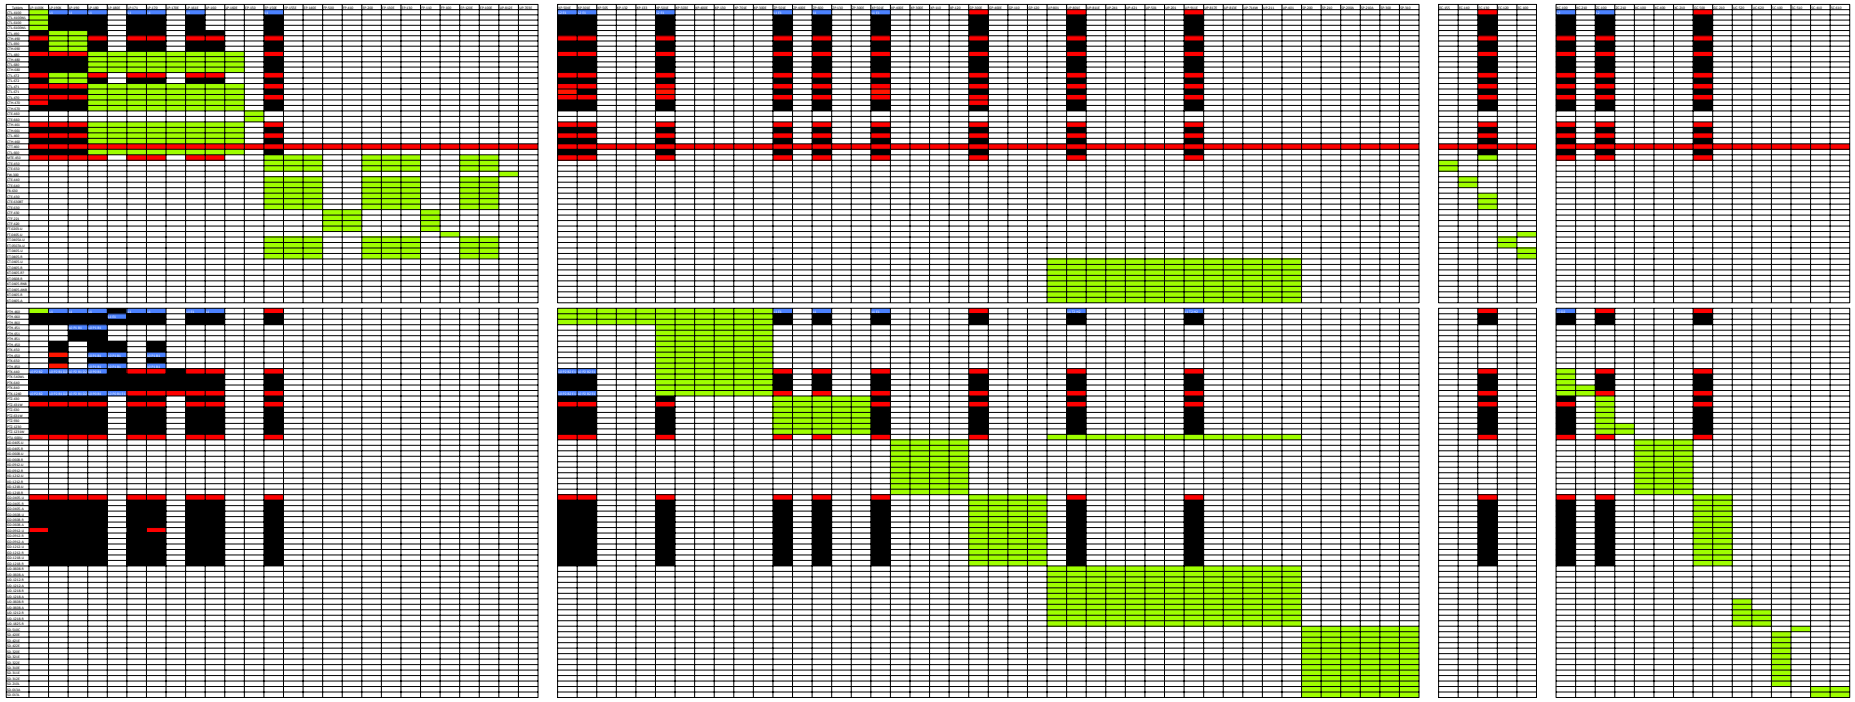
Kuuube's Wacom Tablet Pen Compatibility Mastersheet

Color Key:

- Perfectly working out-tested or specified by Wacom
- User tested to not work
- User tested to somewhat work
- Untested; may match tablets with similar compatibility, untested and no good assumptions can be made

Key for somewhat working pens/mouse:

Each of the checkmarks below is a unique issue. Some issues include dozens of pens, so the above somewhat-working-pens/mouse lists are separated from the issues.


[1] - Random waves perfectly	[2] - Glasses works fairly	[3] - Necklace/bracelet works perfectly	[4] - Pen tip does not work
[5] - Random line widths/ flat spots on pressure curves	[6] - Pen tip does not detect pressure sensing	[7] - Necklace/bracelet works with some errors	[8] - The pen/mouse does not detect when dragging
[9] - Random line widths/ flat spots on tilt	[10] - Pen/mouse buttons work inconsistently	[11] - Necklace/bracelet works with inconsistent delay	[12] - Cursor jitter/drift when pen is hovering
			[13] - Cursor jitter/drift when pen is down
