

# Kuuube's Tablet Buying Guide

**All tablets on their respective lists are listed in order of best to worst raw performance. In cases of considerable tradeoffs in specs, the tablet with a higher Price/Performance Ranking will be placed higher. For tablets with a range of Targeted Prices, the average of that range is used for the Price/Performance Ranking.**

**Each category's Price/Performance rankings are separate. Tablets with the same Price/Performance in different categories are not equal. Refer to the Performance Ranking and other specs when comparing between categories.**

**Check the Targeted Price of tablets before buying. Secondhand options and some brand new options may be wildly more or less expensive than the Targeted Price. These differences can cause the price to performance ratings to change dramatically.**

**Check tablet sizing before you buy. Most players will be best with small size. Price to performance assumes you will use an area larger than smaller tablets. Do not buy a medium or large tablet if you do not need that area size.**

**If you wrap your pen, apply grip tape covering the pen's button rocker/cover, or make similar modifications, you must remove the button rocker/cover first. Issues that could occur from improper modifications are not noted in this guide.**

## Brand New Low Budget Options

| Brand  | Model Identifier | Recommendation                   | Price/Performance Ranking | Targeted Price | Performance Ranking | Size | Hardware Smoothing | Hover Distance | Surface Feel | Additional Relevant Product Information  |
|--------|------------------|----------------------------------|---------------------------|----------------|---------------------|------|--------------------|----------------|--------------|--|
| Garmin | 5620             | Highly Recommended               | 10/10                     | 25-40 USD      | A                   | S    | Minimal            | Low            | Low Friction | Input dropping when pressing pen side buttons and firmware version can be upgraded or downgraded.  |
| XP pen | G660 Rev A       | Not Recommended                  | 4/10                      | 40 USD         | B                   | S    | Minimal            | Low            | Low Friction | Angle snapping issues, may be unreliable to buy (even when ordering a Rev A), you may receive a Rev R), and input dropping when pressing pen side buttons.           |
| Veellk | S600             | Usually Not Recommended          | 7/10                      | 30-35 USD      | C                   | S    | More than minimal  | Low            | Low Friction | May be unreliable to buy, read dropping when pressing pen side buttons, and non-detachable cable.  |
| Veellk | VO1860           | Usually Not Recommended          | 7/10                      | 35-50 USD      | C                   | M    | More than minimal  | Medium         | Low Friction | Input dropping when pressing pen side buttons and report rate may drop to 40Hz when moving slowly.   |
| Veellk | S600 V2          | Not Recommended                  | 5/10                      | 20-35 USD      | C                   | S    | More than minimal  | Low            | Low Friction | Input dropping when pressing pen side buttons, non-detachable cable, and report rate may drop to 40Hz when moving slowly.  |
| Huion  | H420K            | Not Recommended                  | 4/10                      | 25 USD         | C                   | XS   | Decent             | Medium         | Low Friction | Input dropping when pressing pen side buttons.   |
| XP pen | G430 or G430S    | Not Recommended                  | 4/10                      | 30 USD         | C                   | XS   | Decent             | Medium         | Low Friction | Angle snapping issues, input dropping when pressing pen side buttons and non-detachable cable.   |
| XP pen | Deco Pro KS      | Not Recommended                  | 4/10                      | 25-30 USD      | C                   | XS   | Decent             | Medium         | Low Friction | Input glitching and dropping when pressing pen side buttons, strong anti-chatter (perceived when dragging), and surface prone to loud squeaking when dragging on it. |
| Garmin | 5630             | Highly Not Recommended           | 3/10                      | 30-35 USD      | C                   | XS   | Bad                | Low            | Low Friction | Input dropping when pressing pen side buttons.   |
| Garmin | 5630             | Highly Not Recommended           | 3/10                      | 25-40 USD      | C                   | S    | Bad                | Low            | Low Friction | Input dropping when pressing pen side buttons.   |
| None   | P1-640           | Highly Not Recommended           | 2/10                      | 25-30 USD      | D                   | S    | Bad                | Low            | Low Friction | Input dropping when pressing pen side buttons.   |
| XP pen | G605             | Highly Not Recommended           | 1/10                      | 50 USD         | D                   | S    | Bad                | Low            | Low Friction | Angle snapping issues and input dropping when pressing pen side buttons.   |
| XP pen | G660 Rev B       | Highly Not Recommended           | 1/10                      | 40 USD         | D                   | S    | Bad                | Low            | Low Friction | Input dropping when pressing pen side buttons.   |
| Huion  | H564             | Highly Not Recommended           | 1/10                      | 30-40 USD      | D                   | S    | Bad                | Low            | Low Friction | Input dropping when pressing pen side buttons.   |
| Huion  | 42B or H410      | Extremely Highly Not Recommended | 0/10                      | 20-35 USD      | F                   | XS   | Bad                | Medium         | Low Friction | Battery pen, and input dropping when pressing pen side buttons.  |
| Huion  | H400R            | Extremely Highly Not Recommended | 0/10                      | 30-40 USD      | A                   | S    | Very Bad           | Low            | Low Friction | Input dropping when pressing pen side buttons.   |
| Huion  | H400P            | Extremely Highly Not Recommended | 0/10                      | 30-40 USD      | F                   | S    | Very Bad           | Low            | Low Friction | Input dropping when pressing pen side buttons.   |
| None   | X1-640           | Extremely Highly Not Recommended | 0/10                      | 25-30 USD      | F                   | S    | Very Bad           | Low            | Low Friction | Input dropping when pressing pen side buttons.   |
