Kuuube's Wacom Tablet Pen Compatibility Mastersheet

Color Key:

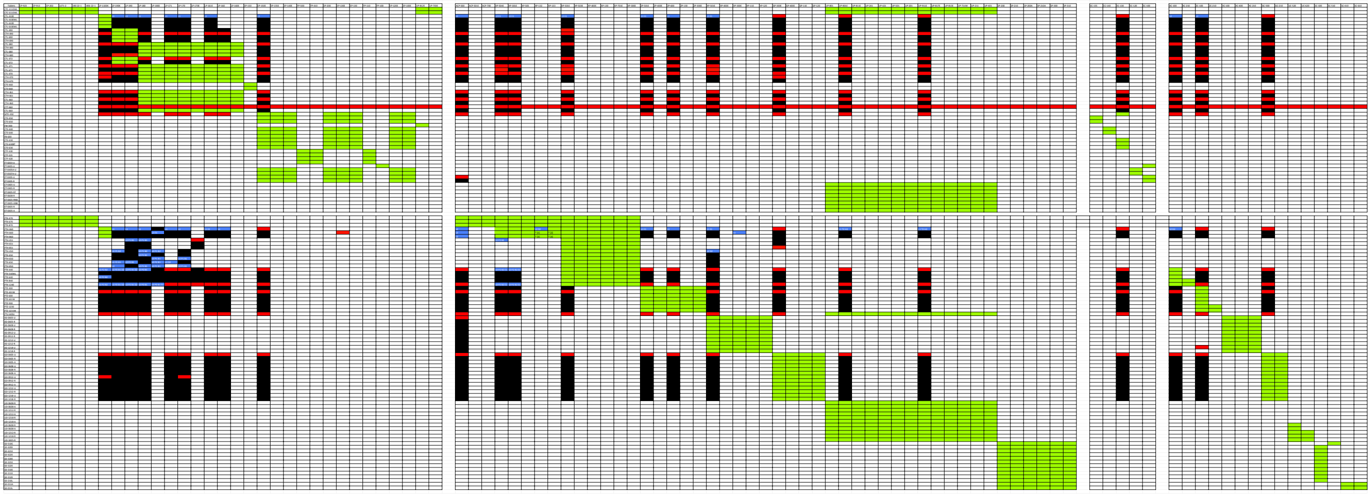
- 🟩 : Perfectly working user tested or specified by Wacom
- 🟥 : User tested to not work
- 🟦 : User tested to somewhat work
- ⬛ : Untested, may match tablets with similar compatibility
- ⬜ : Untested and no good assumptions can be made

Key for somewhat working pens/mice:

If any of the highlighted features are not listed, those features do not detect at all or the pen in question does not support these features. If there is a ? instead of a number, the tester was unable to test that feature.

L0: Position works perfectly	P0: Pressure works Perfectly	B0: Pen/mouse buttons work perfectly	T2: Pen tip does not work	E0: Eraser detection works perfectly
L1: Position has lag, noise, or precision issues	P1: Pressure is usable but levels are wrong	B1: Fewer than all pen/mouse buttons work	D2: The pen/mouse does not detect when dragging	E1: Eraser functions the same as the pen tip
L2: Position has extreme lag, noise, or precision issues	P2: Effectively digital pressure levels (0-1)	B2: Pen/mouse buttons send unusable data	H2: The pen/mouse does not detect when hovering	E2: Eraser side does not work

All compatibility ratings in this sheet apply to the tablet itself. Wacom drivers almost always block pens with partial compatibility. Using OpenTabletDriver is recommended.



List of everyone who has helped with this sheet:

Kuuube, Eri, Saya, Matina, OniCado, lerit050, June, limefps, mistralwz, rubik, avt613, Hikami, gonX, Nyunyun, Fengshen
